

Co-eXprise Experiences Continued Momentum with Latest CX4 Release and Customer Wins

The release of CX4 7.7 and the addition of two customers poise Co-eXprise for continued growth.

Wexford, PA ([PRWEB](#)) September 08, 2011 -- Co-eXprise, the leading provider of enterprise sourcing solutions for discrete manufacturers, is pleased to announce that CX4 7.7 is now generally available. Focused on the enterprise sourcing needs of discrete manufacturers, the enhancements to the CX4 Collaborative Cost Management solution continue to revolutionize the way in which companies source their direct materials and indirect goods and services. The recent addition of two new customers further validates Co-eXprise's continued momentum in becoming the sourcing solution of choice for manufacturers.

The CX4 7.7 release is designed to enhance usability and includes new capabilities such as Smart Copy and Project Bookmarks that will drive further efficiencies in customer sourcing processes. This release also includes notable upgrades to CX4's patented viewer technology, including the ability to red-line markup engineering documents, significantly enhancing the ability to collaborate with both internal stakeholders and external suppliers on critical cost management activities.

“Our development roadmap is focused on ensuring that we continue to provide thought leadership and incremental business value to our customers,” says John Benzinger, Chief Information Officer and Executive Vice President of Co-eXprise. “We are excited about our future development plans and the increased capabilities they will bring to our customers.”

Co-eXprise is also pleased to announce that they have recently signed long-term software license agreements with an aerospace and defense contractor and a leading diversified technology manufacturer.

“Discrete manufacturers continue to see the value in CX4 and its ability to improve sourcing effectiveness and efficiency across their extended enterprises,” says William Blair, Founder and CEO of Co-eXprise. “The interest in our solutions is increasing as companies focus on more collaborative approaches to managing their global sourcing activities.”
